

SRAJAN SONI

Frontend Developer

📞 7828244431 @srajansoni400@gmail.com 🔗 <https://www.linkedin.com/in/srajan-soni-4b49601a4/>

EDUCATION

B.Tech in Compter Science

Gyan Ganga College Of
Technology

📅 2018 - 2022

SKILLS

Java Python Javascript

React Node.js Express

MongoDB Git Redux

Bootstrap HTML & CSS

EXPERIENCE

Software Engineer

Persistent Systems

📅 07/2022 - 11/2023 📍 Location

Company Description

- After completing my internship, I seamlessly transitioned into a full-time role as a Software Engineer at Persistent Systems, where I continued to contribute my expertise to impactful projects.
- Completed Microsoft Azure certifications and actively participated in coding events, fostering a collaborative team environment.
- Collaborated on IBM's Maas360 projects as a UI developer and backend Python SQL developer, contributing to intuitive userinterfaces and robust backend functionalities.
- Primarily used React and Bootstrap Framework, experience with HTML/CSS/JS, Python,Java and Oracle SQL.

Software Engineer Intern

Persistent Systems

📅 02/2022 - 07/2023 📍 Location

Company Description

- Engaged in immersive Java FullStack internship at Persistent Systems, gaining practical experience in web development.
- Actively contributed to the development lifecycle, acquiring valuable insights into dynamic technologies and methodologies.

SUMMARY

Results-driven Full Stack Developer with expertise in Reactjs,Java, and Python. Proven track record at Persistent Systems, excelling in both frontend and backend development.

Meticulous problem solver, ensuring high-quality and scalable solutions. A collaborative team player with a passion for driving innovation in web applications

PROJECTS

Instagram clone - (MERN STACK)

📅 01/2024 - 03/2024

Developed a fully functional Instagram clone using the MERN (MongoDB, Express.js, React.js, Node.js) stack, demonstrating expertise in both frontend and backend technologies.

- Implemented features such as user authentication, photo upload, like/comment functionality, and feed display, showcasing comprehensive understanding of web development principles.
- Employed problem-solving skills to overcome challenges in compatibility, authentication, and performance optimization.
- Deployed the application to Heroku, demonstrating expertise in deployment and DevOps practices.

IOS Homescreen - Maas360

📅 01/2023 - 10/2023

Contributed to the UI development of the iOS home screen

- Designed IOS home screen functionalities, took apps data from API, managed that data, created folders, added apps inside folders, addition and deletion of screen pages as well as folders.
- Developed and implemented user interface components using React.js.
- Utilized the Carbon framework to enhance the UI design and functionality

GYRO - Get Your Room Own

📅 10/2020 - 04/2021

Developed a web application serving as a platform connecting hostel seekers, particularly students, with hostel owners seeking to showcase their accommodations

- Designed and implemented the userinterface using HTML, CSS, and Bootstrap, ensuring a user-friendly experience for both hostel seekers and owners
- Developed interactive features and dynamic content using JavaScript and JSP, enhancing user engagement and functionality
- Implemented the backend infrastructure with Java Servlets, facilitating smooth communication between the frontend and backend.
- Integrated JDBC for efficient database operations, ensuring seamless data storage and retrieval
